

Enterprise scalability – device management that grows as you do

Fusion Premium provides enterprise-class device management for businesses of all sizes. From ten to ten service to all your users.

Complete network visibility

Agentless discovery and cataloguing tools capture details of every network-attached device giving you a granular insight into software, licensing and patch levels. Enterprise dashboards and a multi-device VNC Wall add real-time monitoring and control functionality for improved management and support of individual devices.

Full mobile management

management and administration for devices running iOS*, Android and Windows Phone*.

Automating administration

From collecting and displaying network information on the enterprise dashboards to building event-based actions, Fusion Premium is designed to simplify and automate tasks, freeing your team to focus on other important tasks.

Compliance as standard

Monitor and deploy application patches and antivirus updates to every networked asset using Fusion Premium, but you have records to prove it.

OD[PLVLQWV\DUHUHV\UFHV

Use Fusion Premium to dynamically allocate software and licensing, ensuring that resources are used intelligently and your business never has a costly shortfall or surplus of either. IT budgeting also becomes much easier to
